Financial Expense Audit Report

REPORT INFORMATION	DETAIL
Reporting period	2025-01-02 to 2025-12-28
Generated date (UTC)	2026-11-10T00:00:00+00:00
Analysis mode	deterministic
Audit scope	All four financial checks; EUR only
Data source	Validated CSV/XLSX transaction export; source rows retained in session.
Data coverage	100 source rows; 96 eligible; 4 excluded; 1 undated
Audit status	Review required

Confidential when populated with real records. Independent portfolio application; this report supports human review and is not a certified financial audit.

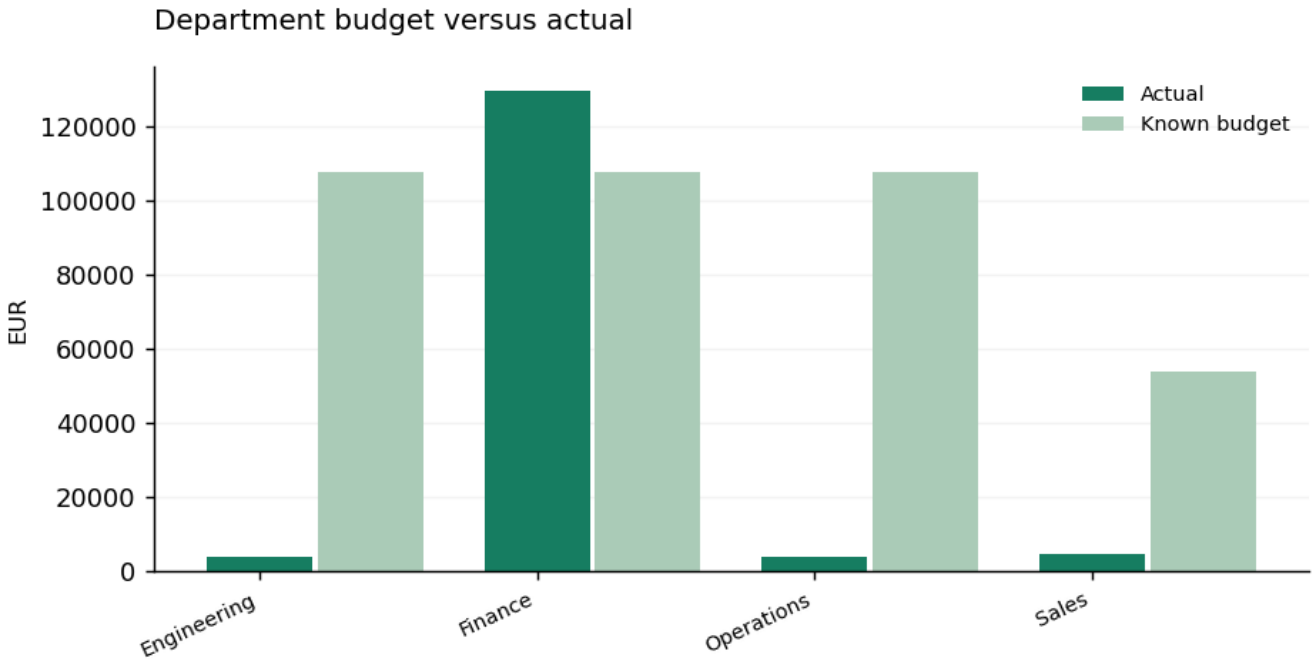

Executive Summary

MEASURE	VERIFIED RESULT
Total expenses	EUR 142,638.50
Total budget	EUR 378,000.00
Absolute variance (actual − budget)	EUR -235,361.50
Percentage variance	-62.26%
Potentially duplicate transactions (unique source rows)	3
Statistical anomalies (unique source rows)	3
Missing/invalid data issues	6
Potential policy exceptions (unique source rows)	1
Verified financial findings	12
Overall audit status	Review required

Amounts include potential duplicate records pending human review. An unknown budget is not zero. Finding amounts overlap and are not proven losses.

Financial Performance

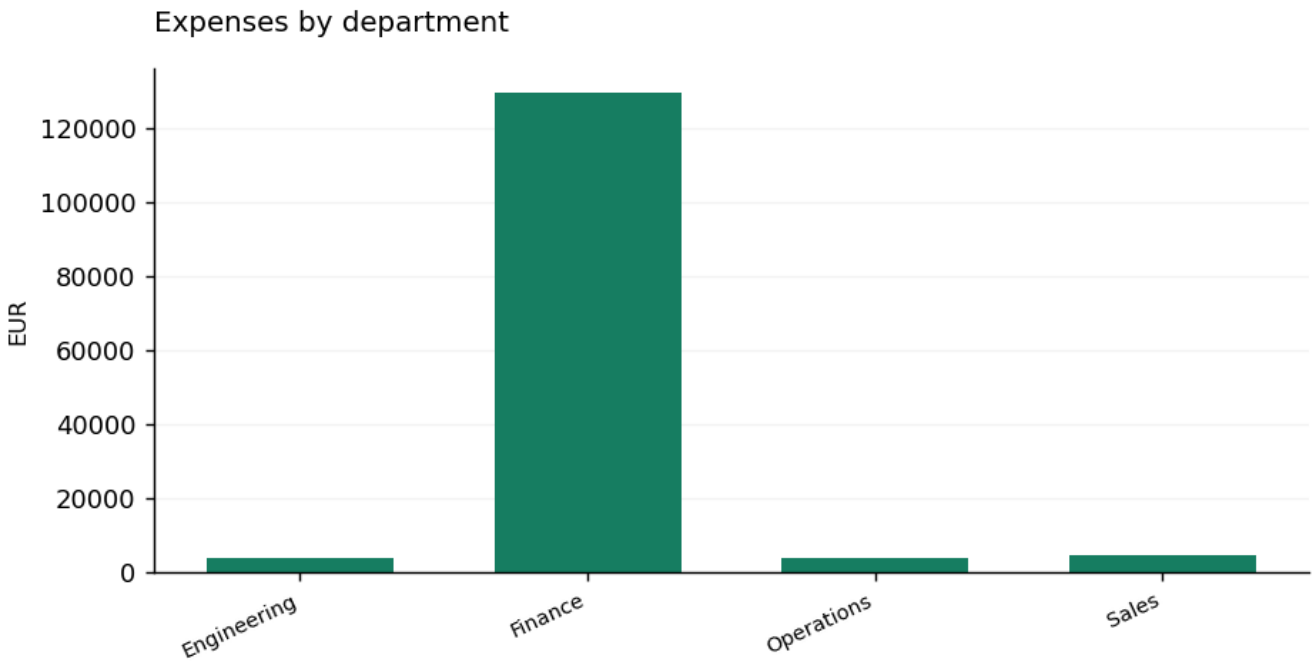

Budget versus actual by department

Department	Actual	Budget	Variance
Engineering	EUR 4,005.35	EUR 108,000.00	EUR -103,994.65

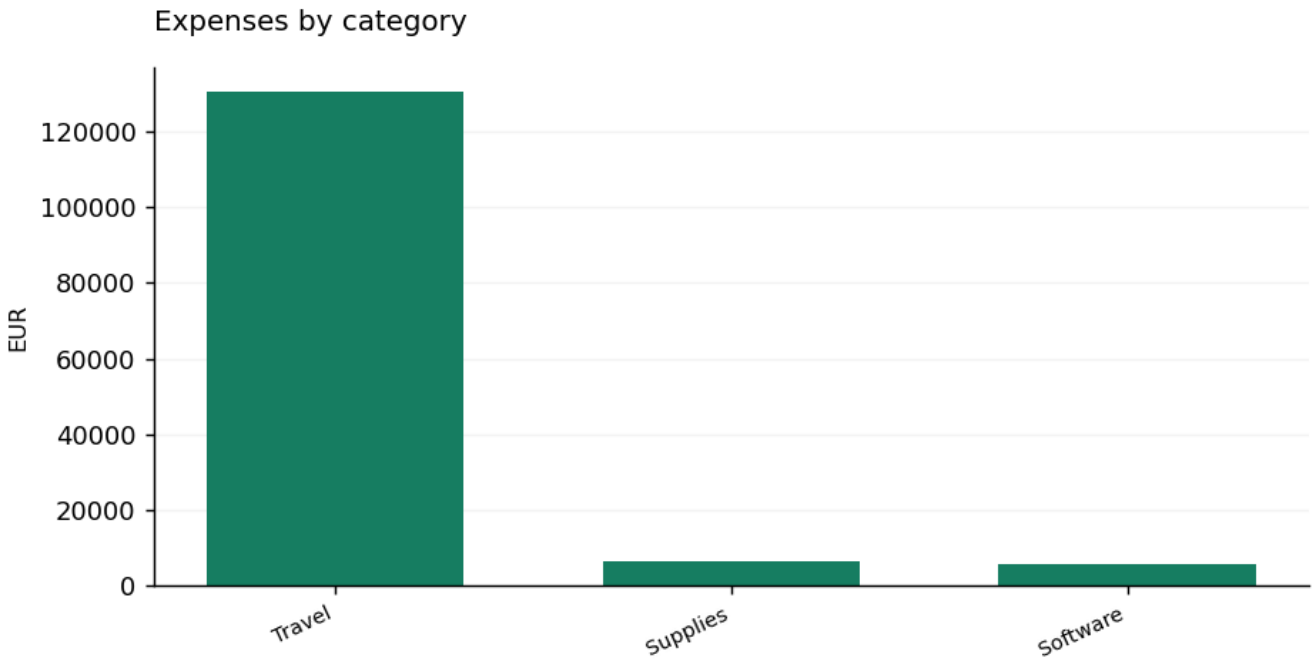

Department	Actual	Budget	Variance
Finance	EUR 129,916.23	EUR 108,000.00	EUR 21,916.23
Operations	EUR 3,883.03	EUR 108,000.00	EUR -104,116.97
Sales	EUR 4,833.89	EUR 54,000.00	EUR -49,166.11

Expenses by department

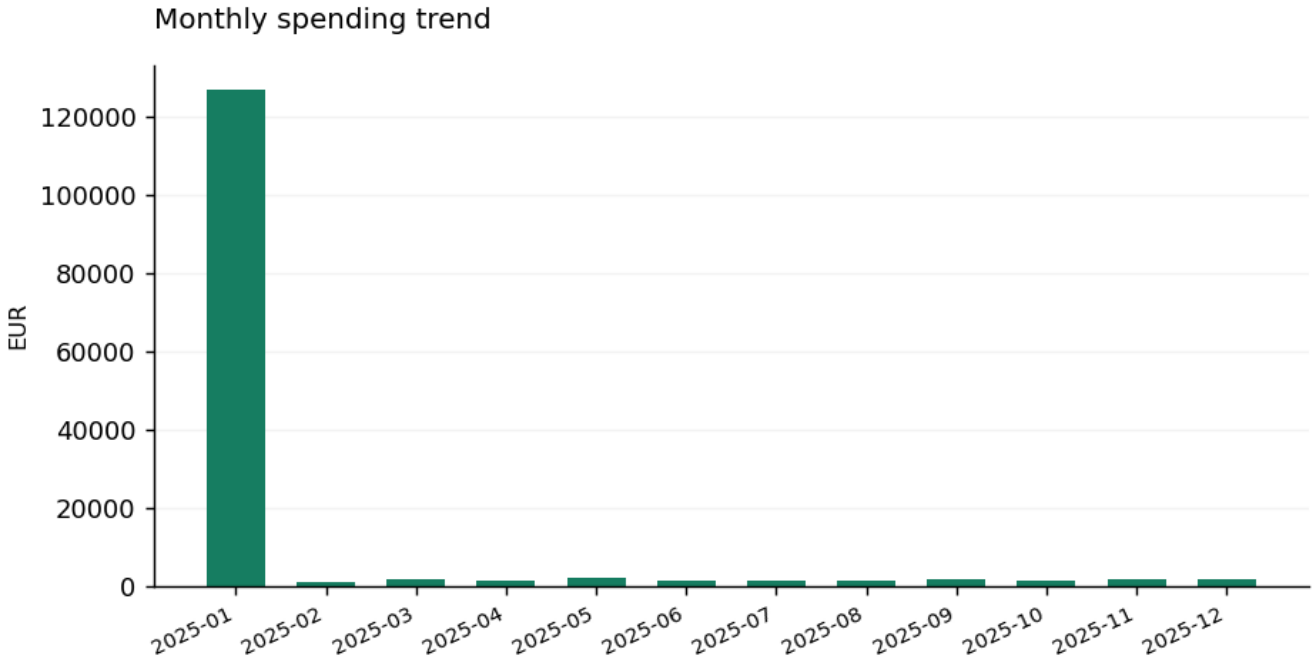

Scope	Actual expenses
Engineering	EUR 4,005.35
Finance	EUR 129,916.23
Operations	EUR 3,883.03
Sales	EUR 4,833.89

Expenses by category

Scope	Actual expenses
Travel	EUR 130,485.96
Supplies	EUR 6,415.05
Software	EUR 5,737.49

Monthly spending trends

Scope	Actual expenses
2025-01	EUR 126,820.64
2025-02	EUR 887.62
2025-03	EUR 1,767.42
2025-04	EUR 1,237.23
2025-05	EUR 1,896.42
2025-06	EUR 1,285.44
2025-07	EUR 1,441.21
2025-08	EUR 1,250.38
2025-09	EUR 1,497.79
2025-10	EUR 1,224.07
2025-11	EUR 1,806.11
2025-12	EUR 1,524.17

Cost centers contributing to unfavorable variance

Cost center	Actual	Budget	Unfavorable variance
CC-4	EUR 129,916.23	EUR 108,000.00	EUR 21,916.23

Audit Findings

duplicates:0 | HIGH | exact_invoice_duplicate

Type: duplicates. Department: Engineering. Cost center: CC-1.

Affected recorded expense (not proven loss): EUR 206.68

Source row	Transaction ID
2	TX00000
3	TX00001

Detection rule: Multiple records share invoice, vendor, amount and date.

Supporting evidence: {"invoice_id": "inv00000", "vendor": "fictional vendor 03", "amount_cents": 10334, "date": "2025-01-21", "record_count": 2}

Source description: Fictional business expense

Recommended investigation: Review supporting records; do not assume fraud.

duplicates:1 | MEDIUM | possible_duplicate

Type: duplicates. Department: Engineering. Cost center: CC-1.

Affected recorded expense (not proven loss): EUR 206.68

Source row	Transaction ID
3	TX00001
4	TX00002

Detection rule: Records share vendor and amount within the configured date window.

Supporting evidence: {"vendor": "Fictional Vendor 03", "amount_cents": 10334, "days_apart": 0, "tolerance_days": 3}

Source description: Fictional business expense

Recommended investigation: Review supporting records; do not assume fraud.

budget:0 | HIGH | budget_overrun

Type: budget. Department: Finance. Cost center: CC-4.

Affected recorded expense (not proven loss): EUR 125,278.73

Source row	Transaction ID
5	TX00003
53	TX00051
101	TX00099

Detection rule: Recorded expense exceeds the monthly allocation.

Supporting evidence: {"month": "2025-01", "department": "Finance", "cost_center": "CC-4", "actual_cents": 12527873, "budget_cents": 900000, "variance_cents": 11627873, "variance_percent": 1291.985888888889}

Source description: Fictional business expense

Recommended investigation: Review the allocation and supporting expense approvals.

anomalies:0 | MEDIUM | high_amount_iqr

Type: anomalies. Department: Sales. Cost center: CC-2.

Affected recorded expense (not proven loss): EUR 495.54

Source row	Transaction ID
99	TX00097

Detection rule: The amount exceeds its category’s statistical upper fence.

Supporting evidence: {"category": "Software", "observed_cents": 49554, "threshold_cents": 39226.5, "q1_cents": 14352.75, "q3_cents": 24302.25, "multiplier": 1.5, "cohort_size": 30}

Source description: Fictional business expense

Recommended investigation: Review business purpose and approval; an outlier is not proof of fraud.

anomalies:1 | MEDIUM | high_amount_iqr

Type: anomalies. Department: Sales. Cost center: CC-2.

Affected recorded expense (not proven loss): EUR 698.28

Source row	Transaction ID
91	TX00089

Detection rule: The amount exceeds its category’s statistical upper fence.

Supporting evidence: {"category": "Supplies", "observed_cents": 69828, "threshold_cents": 39908.25, "q1_cents": 13567.0, "q3_cents": 24103.5, "multiplier": 1.5, "cohort_size": 31}

Source description: Fictional business expense

Recommended investigation: Review business purpose and approval; an outlier is not proof of fraud.

anomalies:2 | MEDIUM | high_amount_iqr

Type: anomalies. Department: Finance. Cost center: CC-4.

Affected recorded expense (not proven loss): EUR 125,000.00

Source row	Transaction ID
5	TX00003

Detection rule: The amount exceeds its category’s statistical upper fence.

Supporting evidence: {"category": "Travel", "observed_cents": 12500000, "threshold_cents": 38075.0, "q1_cents": 10510.0, "q3_cents": 21536.0, "multiplier": 1.5, "cohort_size": 35}

Source description: Fictional business expense

Recommended investigation: Review business purpose and approval; an outlier is not proof of fraud.

missing_data:0 | HIGH | missing_value

Type: missing_data. Department: Engineering. Cost center: CC-1.

Affected recorded expense (not proven loss): Not evaluable

Source row	Transaction ID
6	TX00004

Detection rule: The record failed the stated data-quality rule.

Supporting evidence: {"column": "vendor", "excluded_from_financials": true}

Source description: Fictional business expense

Recommended investigation: Review supporting records; do not assume fraud.

missing_data:1 | HIGH | invalid_amount

Type: missing_data. Department: Operations. Cost center: CC-3.

Affected recorded expense (not proven loss): Not evaluable

Source row	Transaction ID
8	TX00006

Detection rule: The record failed the stated data-quality rule.

Supporting evidence: {"column": "amount", "excluded_from_financials": true}

Source description: Fictional business expense

Recommended investigation: Review supporting records; do not assume fraud.

missing_data:2 | HIGH | invalid_date

Type: missing_data. Department: Sales. Cost center: CC-2.

Affected recorded expense (not proven loss): Not evaluable

Source row	Transaction ID
7	TX00005

Detection rule: The record failed the stated data-quality rule.

Supporting evidence: {"column": "invoice_date", "excluded_from_financials": true}

Source description: Fictional business expense

Recommended investigation: Review supporting records; do not assume fraud.

missing_data:3 | HIGH | unsupported_currency

Type: missing_data. Department: Finance. Cost center: CC-4.

Affected recorded expense (not proven loss): Not evaluable

Source row	Transaction ID
9	TX00007

Detection rule: The record failed the stated data-quality rule.

Supporting evidence: {"column": "currency", "excluded_from_financials": true}

Source description: Fictional business expense

Recommended investigation: Review supporting records; do not assume fraud.

missing_data:4 | MEDIUM | duplicate_transaction_id

Type: missing_data. Department: Engineering. Cost center: CC-1.

Affected recorded expense (not proven loss): EUR 348.28

Source row	Transaction ID
10	TX00009

Detection rule: The record failed the stated data-quality rule.

Supporting evidence: {"column": "transaction_id", "excluded_from_financials": false}

Source description: Fictional business expense

Recommended investigation: Review supporting records; do not assume fraud.

missing_data:5 | MEDIUM | duplicate_transaction_id

Type: missing_data. Department: Sales. Cost center: CC-2.

Affected recorded expense (not proven loss): EUR 378.09

Source row	Transaction ID
11	TX00009

Detection rule: The record failed the stated data-quality rule.

Supporting evidence: {"column": "transaction_id", "excluded_from_financials": false}

Source description: Fictional business expense

Recommended investigation: Review supporting records; do not assume fraud.

Policy Compliance

35 supported rule/transaction comparisons were evaluated. 1 unique source rows exceeded a cited limit. Applicability and exceptions require human confirmation.

Policy title	Version	Effective date	Pages
Fictional Expense Policy	1.0	2025-01-01	1

Source metadata is uploader-declared; citations are checked against retained PDF bytes.

Policy evidence 1 — TX00003

Fictional Expense Policy; version 1.0; effective 2025-01-01; section 1. Travel expense limits; page 1; source row 5.

Verified source passage: Travel expenses must not exceed EUR 500.00 per transaction.

Assessment: potential_violation; observed expense: EUR 125,000.00; limit: EUR 500.00

Recorded amount exceeds the cited per-transaction category limit; review applicability, exceptions and approval evidence.

Document SHA-256: d617c8b921ffd182ab61217007933f74583c14ae3d1fc278c2978251b32874ae; chunk: bc79e09c2dc13fd8cfa2d7b239d61dc0114e89848e16634fde8baeb79a84f50b

Policy evidence 2 — TX00009

Fictional Expense Policy; version 1.0; effective 2025-01-01; section 1. Travel expense limits; page 1; source row 10.

Verified source passage: 1. Travel expense limits

Travel expenses must not exceed EUR 500.00 per transaction.

Exceptions and approvals require human review.

Assessment: related_guidance; observed expense: EUR 348.28; limit: Not evaluable

Retrieved passage for human review; no automatic violation conclusion.

Document SHA-256: d617c8b921ffd182ab61217007933f74583c14ae3d1fc278c2978251b32874ae; chunk: bc79e09c2dc13fd8cfa2d7b239d61dc0114e89848e16634fde8baeb79a84f50b

Policy evidence 3 — TX00010

Fictional Expense Policy; version 1.0; effective 2025-01-01; section 1. Travel expense limits; page 1; source row 12.

Verified source passage: 1. Travel expense limits

Travel expenses must not exceed EUR 500.00 per transaction.

Exceptions and approvals require human review.

Assessment: related_guidance; observed expense: EUR 109.45; limit: Not evaluable

Retrieved passage for human review; no automatic violation conclusion.

Document SHA-256: d617c8b921ffd182ab61217007933f74583c14ae3d1fc278c2978251b32874ae; chunk: bc79e09c2dc13fd8cfa2d7b239d61dc0114e89848e16634fde8baeb79a84f50b

Investigation Summary

AI-selected priorities are explicitly labeled and cannot introduce new financial facts. Other explanations are deterministic summaries of verified results.

Calculated summary: 12 verified review findings; 4 source rows excluded from financial calculations. Flags require investigation, not automatic payment decisions.

Calculated summary: The expense-minus-budget variance is calculated from represented monthly allocations. Review the unfavorable cost centers listed in Financial Performance; the dataset alone does not establish causal explanations.

Calculated summary: Largest recorded department expense: Finance, EUR 129,916.23. This is a spending concentration, not evidence of its underlying cause.

Calculated summary: Largest unfavorable cost-center variance: CC-4, EUR 21,916.23 above its represented allocation. Review invoice scope, approvals and allocation ownership before attributing a cause.

Calculated summary: Deterministic summary: prioritize high-severity findings, missing approvals, budget conflicts and supporting invoice checks. No live AI explanation was used.

Methodology and Limitations

• Trimmed surrounding whitespace in analytical fields; source retained unchanged.

• Normalized currency to uppercase; only EUR is supported; no FX conversion.

• Parsed ISO dates (including Excel midnight cells) and exact nonnegative cents; invalid financial rows excluded explicitly.

• Retained duplicate records for audit; no automatic deduplication.

• Budget allocation grain: month, department, cost_center; conflicts reported, not summed.

• Duplicates: invoice/vendor/exact cents/date; possible matches within three days.

• Outliers: category Q3 + 1.5 × IQR, minimum eight eligible observations; not fraud proof.

• Variance = actual − budget; positive is unfavorable. Percent undefined for zero/unknown budget.

• Budgets are counted once per month/department/cost center; unknown/conflicting groups withhold overall variance. All payment statuses and potential duplicates remain in actuals.

• Policy PDFs: PyMuPDF extraction; same-page/section chunks, lexical retrieval, exact quotes and retained-byte hashes. Title/version/effective date are uploader-declared.

• Only exact supported category-limit sentences are automatically evaluated; other policy language and exceptions require human review.

• Review flags are not findings of fraud.

• Totals retain possible duplicate entries until human review.

• Budgets cover represented month/department/cost-center allocations only.

• EUR-only, nonnegative expenses; refunds and FX conversion are not supported.

• This report supports human review and is not a certified financial audit.

• Financial amounts attached to findings are affected recorded expenses, not proven losses; overlapping findings must not be summed.

• Undated records cannot be assigned to a narrower reporting period.

• Policy checks are limited to supported retrieved rules; they are not an exhaustive compliance assessment.
